Our Process  
What Makes Us Different?

# BUT WHY AQUAPONICS?

## OUTBREAK ALERT UPDATE: *E. coli*

FDA warns consumers not to eat  
**romaine lettuce grown in  
Salinas, California**

Farming in the MIDWEST:  
a tragic love story

# GORONMAMIRUS

How it changed our view on food!!

# What Can We Do?

- Love on Local
  - Have city sites share local stories/markets/farms
- Support Small
  - Ask grocers and restaurants to get produce locally
- Keep Markets Open
  - Stress an importance on socially distanced markets
- Ease of Ag
  - The ability to buy small plots (1-3 acres) retail or commercial and get it zoned Ag.

# Thank You

XOXO, Walker & Texas Ranger
